

**ADVANCE ARTISTRY OF CHANNELING
COURSE:
New Domains, New Opportunities, New Possibilities**

February 15th, 16th, 17th, 2019

Storm Wisdom in Phoenix

Cost: \$420

Most individuals who channel have dreams of it becoming more. And yet, as the desire for this grows within us, we are left confronting the mystery of what that exactly means. It seems impossible to put words to the ever-present yearning for a more productive and more complex experience. The looming question is always, HOW?

In this advance channeling course, we begin with the familiar premise that 'nothing changes until I do'. But change for each of us is different now. It no longer includes the need for struggle or self-admonishment but is more about willingness and choice.

It involves leaning into the energies of 2019, which incorporate the frequencies of grace in all of its beautiful complexity. It includes reaching beyond our knowing, pausing, and then surrendering into the rhythmic pulse of Oneness.

With Luma's guidance, we can lean into futures that can only be co-created or received. We can birth new relationships that are a reflection of who we have become, and we can illuminate new possibilities for our channeling. We can let the journey of our channeling take on a new vibrancy filled with an excitement and joy, and we can depart this magical time with our unseen friends with knowledge that '*yes, everything is different now*'.

Some ideas to explore:

- Touch the heart of your personal grace.
- Go through the narrows of your resistance to an expanded channeling state.
- Explore multi-dimensionality and its role in channeling.
- Be touched by a Luminous Future Self.
- Surrender to the unknown of your pre-incarnational commitments and choices.
- Activate connections to futures that can only be co-created or received.
- Practice exercises to explore the unknown of what can BE.
- Space for the spontaneous and unplanned with our unseen friends!!!

Also, there will be continuous conversations, meditations and lectures with Luma, the beautiful consciousness that I have been channeling for over two decades.

This course is open to anyone who currently channels and would like to expand or renew your relationship to it.
